

I am a contemporary abstract artist based in the Netherlands. I am largely self-taught, but also attended several workshops at miegl and Annette Schmucker Atelier. My website is: [www.selenesart.blogspot.com](http://www.selenesart.blogspot.com).

While my works are abstract, one can recognise in them various symbolisms (such as the universe, mandalas, planets) in an effort to integrate the emerging forces in my soul. I see my work as an expression of the forces churning in my unconscious mind and I routinely record my dreams, providing me inspiration for my art.

I am profoundly interested in the alchemical effect of different materials, creating first textural elements and then adding layer upon layer, in the pursuit of light, depth and interesting textures. My work is fundamentally intuitive, illustrating a dynamic conflict between the order of symmetry and the creative nature of chaos.
